SUMMARY

Full Stack Software Engineer with 5+ years of experience designing and building scalable cloud-native applications using Java, Spring Boot, React.js, and Next.js. Strong expertise in microservices architecture, event-driven systems, and secure API design delivering Highly available systems supporting millions of users. Experienced in AWS cloud infrastructure, Kubernetes deployments, CI/CD pipelines, and observability platforms to ensure performance, reliability, and compliance. Proven ability to optimize system performance, reduce infrastructure costs, and accelerate engineering productivity in Agile environments.

PROFESSIONAL EXPERIENCE Software Engineer (Full stack) Feb 2024 - Present

Shopify San Francisco, CA

- Directed Core Platform Migration to AWS Lambda and ECS, decomposing monoliths into event-driven microservices and cutting infrastructure expenses by 20% in production.
- Architected secure payment authorization flows via OAuth2/OIDC, JWT, and tokenization, ensuring PCI-DSS compliance and zero vulnerabilities in compliance audits.
- Designed and deployed GraphQL APIs using Netflix DGS and integrated Kafka event streaming for idempotent messaging, improving data consistency and frontend efficiency.
- Developed and optimized Spring Boot microservices powering Sidekick API, reducing latency by 35% and seamlessly supporting 10K+ concurrent users across merchant-facing applications.
- Built AI/ML-driven NLP pipelines using TensorFlow Serving and gRPC on AWS Sagemaker, improving intent recognition accuracy by 40% and driving feature adoption.
- Built performant React + TypeScript interfaces with Next.js SSR, enhancing page responsiveness, accessibility, and SEO through optimized rendering and modular design.
- Enhanced developer velocity through Agile/TDD practices (JUnit, Mockito, Cucumber), achieving a 15% sprint velocity gain via test automation and code coverage improvements.
- Implemented CI/CD pipelines with GitHub Actions, Jenkins, Helm, and Terraform, automating EKS deployments and ensuring high availability during large-scale traffic events like Black Friday.
- Adopted 12-Factor app principles with observability stacks (Prometheus, Grafana, ELK), enabling canary rollouts, proactive monitoring, and faster incident recovery.
- Mentored engineers in Java 17+, AWS cloud-native design, and React best practices, fostering higher code quality, maintainability, and engineering excellence across the platform team.

Software Engineer **July 2020 – Nov 2023**
IBM India

- Scaled the IndianOil One app/portal supporting 130M+ consumers and 12K distributors by delivering microservices-based modules, reducing LPG booking turnaround time by 30%.
- Developed and optimized Spring Boot 3.x microservices on IBM Cloud Kubernetes Service, improving scalability and cutting distributor data latency by 25%.
- Integrated CRM, SAP, and DMS systems using REST APIs and event-driven middleware, enabling real-time order, inventory, and grievance tracking.
- Built responsive React.js + TypeScript UI with PWA and accessibility compliance, improving mobile usability and increasing user engagement by 20%.

- Implemented secure authentication and RBAC using OAuth2, OIDC, and JWT, ensuring compliance and data integrity across cloud-hosted services.
- Automated deployments and release workflows using IBM Cloud DevOps, Jenkins, Helm, and Terraform, improving delivery speed and infrastructure consistency.
- Strengthened production reliability through observability using ELK and infra automation with OpenShift and IBM Cloud Schematics, reducing downtime incidents and improving uptime.

TECHNICAL SKILLS

Programming & Frameworks: Java 21, Spring Boot 3.x, Spring Cloud, Hibernate, JPA, JavaScript (ES6+), TypeScript, Node.js, React 18, Next.js (SSR), Redux, GraphQL (Netflix DGS), Python (TensorFlow, gRPC, NLP), Cucumber (BDD).

APIs & Microservices: RESTful APIs, GraphQL, Event-driven Microservices with Kafka (streams, retries, DLQs, outbox pattern), gRPC, API Gateway, OAuth2/OIDC, JWT, RBAC, Tokenization, Encryption.

Databases & Storage: PostgreSQL, MySQL, MongoDB, Redis, Cassandra, DynamoDB; expertise in data modeling, query optimization, distributed caching, and high-concurrency workloads.

Cloud & Infrastructure: AWS (EKS, Lambda, RDS, S3, SQS/SNS, CodePipeline, CloudWatch, IAM), Kubernetes, Azure, GCP Docker, Terraform, Helm, Red Hat OpenShift; serverless and 12-factor SaaS/multi-tenant architectures.

DevOps & CI/CD: GitHub Actions, Jenkins, ArgoCD, AWS CodePipeline, Infrastructure-as-Code, Canary Rollouts, Feature Flags, Automated Deployments.

Testing & Quality: JUnit, Mockito (TDD), Jest, Cypress, React Testing Library, Cucumber (BDD), Pact (contract testing), Testcontainers, SonarQube, Performance Testing.

Observability & Reliability: OpenTelemetry (tracing), Prometheus, Grafana, ELK Stack, SLO/SLI dashboards, Canary & Blue-Green Deployments.

Security & Compliance: OAuth2, OIDC, JWT, RBAC, Secure Coding Practices, PCI-DSS, GDPR, SOC2.

Practices: Agile/Scrum, Pair Programming, TDD/BDD, Continuous Integration/Delivery, Code Reviews, Mentoring, Cross-functional Collaboration.

PROJECT

E-Commerce Microservices Platform

* Built a microservices-based backend using Spring Boot, REST APIs, and Spring Data JPA to manage product data.
* Implemented CRUD APIs with Controller–Service–Repository architecture and integrated H2/MySQL database. GitHub

Personal Portfolio Website

* Developed a responsive portfolio using HTML, CSS, and JavaScript to showcase projects and skills.
* Deployed the website using GitHub Pages for public access. GitHub

Deploy Web Application

* Developed and deployed a web application using HTML, CSS, and JavaScript with version control using Git and GitHub.
* Implemented project deployment and repository management for hosting the application online. GitHub

Spring Boot GraphQL API

* Built a GraphQL API using Spring Boot to perform CRUD operations on product data. GitHub

EDUCATION Roosevelt University (Chicago, Illinois)

Master of Science in Computer Science

CERTIFICATIONS

AWS Certified Solutions Architect - Associate
